15 April 1988

MEMORANDUM FOR THE RECORD

SUBJECT: I-495 Improvements

At the request of the Deputy Director of Logistics, I contacted a representative of the Virginia Department of Transportation (VDOT) to ascertain the status of the VDOT project to add an additional lane to I-495 between Rt. 193 and the George Washington Memorial Parkway. On 14 April 1988, Mr. Roy Conley of VDOT stated that this project is scheduled to be advertised for bids in June 1988. VDOT hopes to complete the project in the fall of 1989, weather permitting.
